NEXO

Our most advanced one-hand opening pack solution, designed to elevate efficiency and innovation across your production line across industries (food, pharma, cosmetics, and travel) With intelligent automation, rapid setup, and total shape flexibility, Nexo empowers your team to produce standout packs at unmatched speed and consistency. Built for today's industries, and ready for tomorrow's demands.

High-Speed Precision You Can Rely On

- Up to 80 packs per minute output
- Filling volumes from 1 ml to 30 ml
- $\pm 1\%$ filling accuracy, depending on product
- Hi-Bar closed-loop dosing systems
- Operates efficiently with regulated air pressure
- Delivers fast return on investment

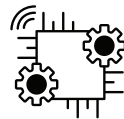

Design Freedom with Zero Downtime Hassles

- Supports multiple pack shapes without custom moulds
- Tool-free shape changeovers in under 30 minutes
- Dual packaging lines for enhanced throughput
- Plier-based alignment delivers better pack sealing
- Compact design with quick setup and high repeatability

Maximum Yield, Minimum Waste

- Patented welding and sealing system
- 5 mm side film waste—industry-leading material yield
- Higher fill per area (e.g., 15g liquid in 60x100mm pack)
- Standard steel construction ensures durability
- Compatible with various film reel sizes and weights

Smart Integration in a Compact Format

- Compatible with inline printers
- Connects to case packers and MES systems
- 10.4" HMI touchscreen for intuitive control and monitoring
- Compact footprint optimized for limited floor space

TECHNICAL DATA

Production capacity	up to 80 units/minute
Changeover time for complete pack change	30 minutes
Max film reels width	150mm / 5.90"
Max film reels diameter	400mm / 15.74"
Max mechanical tolerance	+/-1mm
Standard seals width dimensions	5mm
Machine colour	Steel / Silver
Electricals parts	IP55, IP67 upon request
Standard electronics	8 Brushless Motors
V-Shapes® pack dimensions	Height from 50 to 130mm / 1.96" to 5.12" Width from 40 to 130mm / 1.57" to 3.93"
V-Shapes® pack capacity	1ml to 30ml
Air pressure	6 bar 150NL/M
Power supply	9 Kw/h 50/60 Hz 3PH + 6 400 VAC
Weight (maximum)	800 kg / 1763.7 lb
Machine dimensions	1051mm x 875mm x 2023 mm (H) 41.38" L x 34.45" W x 79.64" H
